[DATE 2010 Press Release](#)

**DATE 2010 takes off with a new record:
Highest number of submissions ever for DATE 2010
in Dresden**

DATE 2010 proves to be very well positioned in the worldwide electronics industry. While many conferences currently suffer from travel restrictions in many companies and face severe problems in attracting attendees, the total number of submissions for DATE 2010 reached an all-time high of more than 980 submissions.

“This shows the worldwide leadership of DATE as a technical conference and exhibition. It is a clear sign that DATE 2010 in Dresden will be the place where all experts will meet and shape the future of our industry. Nobody can afford to miss this event.”, said DATE’s General Chair Professor Giovanni De Micheli.

[Keynotes from top-notch gurus](#)

Highlights of the Technical Program are the keynote talks given by four outstanding leaders from industry and research:

- » Alberto Sangiovanni-Vincentelli, UC Berkeley, USA and Cadence Design Systems;
- » Herman Eul, Senior VP Infineon and Hannover University, Germany;
- » Mark Horowitz, Stanford University, USA; Dimitris Antoniadis, MIT, USA.

Another highlight is the two Special Days: Nanoelectronics and Cool Electronic Systems; focussing on topics of outstanding importance for the industry, each day offers a full day program of keynotes, panels, tutorials and technical presentations.

Hot topics at DATE 2010 will cover cyberphysical systems, energy efficiency, reliability and multicore programming and debugging.

“We prepared a highly scientific technical program in the areas of systems design and test and embedded software for DATE 2010, as we received a record number of submissions. DATE 2010 will also present very strong executive and application tracks.”, says Technical Program Chair Wolfgang Müller, adding, „The importance of DATE as a worldwide indispensable meeting point is demonstrated by the fact that more than 50 % of the submissions come from outside Europe. Asia is becoming very active at DATE, with the biggest-rise submissions coming from China with an increase of 53 % and from Japan of 46 %“.

[General Information on DATE 2010](#)

DATE 2010 will take place in the ICC, Dresden, Germany at March 08–12, 2010. The Saxony State capital is, with its 500.000 inhabitants, an attractive and energetic modern city connecting east and west Europe, located at less than a two hour drive from Berlin and Prague.

Dresden has an historic but modern flair, offering an excellent environment for DATE 2010.

The International Congress Center Dresden – <http://www.dresden-congresscenter.de> – is one of the most modern of its kind in Germany and Europe and fully meets the requirements for cutting-edge seminar, conference and event technology.

The Congress Center and adjoining Maritim Hotel are situated in the heart of the city, only a few steps away from most sights of Dresden and are easily accessible from Dresden Klotzsche Airport by train, tram or car.

This purpose built venue is located approximately 15 minutes from the airport and 5 minutes from the city centre. It is adjacent to the Maritim hotel which will provide competitively priced hotel rooms.

The DATE committee is at present working with Silicon Saxony – <http://www.silicon-saxony.com> – (a registered industry association of approximately 300 compa-
